## Report on Review of Interim Financial Information

To the shareholders and the Board of Directors of  
OAO NGK Slavneft

### **Introduction**

We have reviewed the accompanying consolidated interim condensed financial statements of OAO NGK Slavneft and its subsidiaries, which comprise the consolidated interim statement of financial position as at 30 June 2017, the related consolidated interim statement of comprehensive income for the three-month and six-month periods then ended, consolidated interim statement of changes in shareholder's equity and consolidated interim statement of cash flows for the six-month period then ended and other explanatory notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*.

#### **NOTE 1. GENERAL INFORMATION**

OAo NGK Slavneft (the “Company”) and its subsidiaries (jointly referred to as the “Group”) are engaged in oil exploration, development, production, refining and selling activities for oil in the Russian Federation.

The Company was established as an open joint-stock company in August 1994 in accordance with the Decree of the Government of the Russian Federation # 305, issued 8 April 1994, the Decree of the Council of Ministers of the Republic of Belarus # 589-r, issued 15 June 1994 and the Charter agreement from 27 June 1994. Under the provisions of the decrees and the Charter agreement, the Russian Federation transferred to the Company 60.5% of voting shares of OAo Slavneft-Megionneftegaz, currently the principal oil producing subsidiary of the Group, and 50.7% of voting shares of OAo Megionneftegazgeologiya, the Republic of Belarus transferred to the Company 17.6% of OAo Mozyrsky NPZ and another 15% of OAo Mozyrsky NPZ was transferred to the Company by a number of individuals in exchange for the Company’s shares. Upon formation of the Company, 86.3% of its share capital was owned by the Russian Federation, 7.2% by the Republic of Belarus and 6.5% by a number of individuals.

The authorized capital of the Company is 4,754,238,000 common shares with a par value of Russian Roubles 0.001 per share. The carrying value of share capital as at 30 June 2017 and 31 December 2016 differs from its historic value due to the effect of hyperinflation in the Russian Federation till 31 December 2002.

In a series of transactions through January 2003, including participation in privatization auctions in the Russian Federation and the Republic of Belarus, 99% of the Company’s shares were ultimately acquired together by OAo Siberian Oil Company (currently known as PJSC Gazprom Neft) and TNK-BP (subsequently acquired by PJSC Rosneft Oil Company). PJSC Gazprom Neft and PJSC Rosneft Oil Company (the “Primary Shareholders”) are the Primary shareholders and jointly control the Group.

#### **Registered address and place of business**

The Company’s registered address is 125047, Moscow, 4, 4<sup>th</sup> Lesnoy side-street, the Russian Federation. The Group’s principal place of business is Russian Federation.

#### **NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **Statement of compliance**

The Consolidated Interim Condensed Financial Statements has been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. IAS 34 for interim financial reporting does not require all disclosures that would be necessarily required by International Financial Reporting Standards (hereinafter – “IFRS”).

The Group maintains its books and records in accordance with accounting and taxation principles and practices mandated by legislation in the countries in which it operates (primarily the Russian Federation). The accompanying Consolidated Interim Condensed Financial Statements was primarily derived from the Group’s statutory books and records with adjustments and reclassifications made to present it in accordance with IFRS.

The Group does not disclose information which would substantially duplicate the disclosures contained in its audited Consolidated Financial Statements for 2016, such as significant accounting policies, significant estimates and judgements or disclosures of financial line items, which have not changed significantly in amount or composition. Management of the Group believes that the disclosures in this Consolidated Interim Condensed Financial Statements are adequate to make the information presented not misleading if this Consolidated Interim Condensed Financial Statements is read in conjunction with the Group’s Consolidated Financial Statements for 2016.

The results reported in this Consolidated Interim Condensed Financial Statements for the six months ended 30 June 2017 and 30 June 2016 are not necessarily indicative of the results expected for the full year.

##### **Basis of measurement**

This Consolidated Interim Condensed Financial Statements has been prepared on a historical cost basis, except for financial instruments that have been measured at fair value.

## Slavneft Group

### Notes to the Consolidated Interim Condensed Financial Statements (unaudited)

(in million of Russian Roubles, unless noted otherwise)

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Functional and presentation currency

The functional currency of each of the Group's consolidated entities is the currency of the primary economic environment in which the entity operates. In accordance with IAS 21 *The Effects of Changes in Foreign Exchange Rates* the Group's management has analysed several factors that influence the choice of functional currency and, based on this analysis, has determined the functional currency for each entity of the Group. For the majority of the entities the functional currency is the local currency of the entity. This Consolidated Interim Condensed Financial Statements is presented in Russian Roubles, and all values are rounded to the nearest million, except when otherwise indicated.

### Foreign currency translation

Monetary assets and liabilities, which are held by the Group entities and denominated in foreign currencies at the reporting date, are translated into Russian Roubles (hereinafter – “RR”) at the official exchange rates of the Central Bank of the Russian Federation (hereinafter – “CBR”) at that date. Non monetary assets and liabilities are translated at historical rates. Revenues, expenses and cashflows are translated into functional currency at average rates for the period or exchange rates prevailing on the transaction dates where practicable. Gains and losses resulting from the re-measurement into functional currency are included in the Consolidated Interim Statement of Comprehensive Income.

The following exchange rates determined by the Central Bank of the Russian Federation have been applied at 30 June 2017 and 31 December 2016 and for the six months ended 30 June 2017 and 2016 (in RR):

	30 June 2017	31 December 2016	Average rates for the six months ended 30 June	
			2017	2016
For one currency unit to equivalent Russian Rouble				
– US dollar (“USD”)	59.0855	60.6569	57.9862	70.2583
– Euro (“EUR”)	67.4993	63.8111	62.7187	78.3669

### Going concern

The Group's management prepared this Consolidated Interim Condensed Financial Statements on a going concern basis. In making this judgement management considered the Group's financial position, current intentions, profitability of operations and access to financial resources, and analysed the impact of the situation in the financial markets on the operations of the Group.

Management believes that the current cash on hand, expected cash flows from operations and available standby credit facilities from financial institutions will be sufficient to meet the Group's working capital requirements and repay its short-term debts and obligations when they become due.

### Changes in accounting policies, estimates and judgements

The accounting policies, estimates and judgements applied by the Group in this Consolidated Interim Condensed Financial Statements are the same as those applied by the Group in its Consolidated Financial Statements as at and for the year ended 31 December 2016.

In order to improve the quality of disclosed information, the Company made reclassification between income and expenses in the Consolidated Interim Statement of Comprehensive Income and in the Consolidated Interim Statement of Cash Flows for the six months ended 30 June 2016. These amendments did not have a material impact on the Group's Consolidated Interim Condensed Financial Statements for the six months ended 30 June 2017 and 30 June 2016, therefore additional disclosure was not made.

**Slavneft Group****Notes to the Consolidated Interim Condensed Financial Statements (unaudited)***(in million of Russian Roubles, unless noted otherwise)***NOTE 3. ADOPTION OF NEW AND REVISED STANDARDS AND INTERPRETATIONS**

The accounting policies applied by the Group in this Consolidated Interim Condensed Financial Statements are the same as those applied by the Group in its Consolidated Financial Statements for the year ended 31 December 2016, except that the Group has adopted those new and amended Standards that are mandatory for financial annual periods beginning on 1 January 2017:

<b>Standards</b>	<b>Effective for annual periods beginning on or after</b>
IAS 7 (Amended) <i>Statement of Cash Flows</i>	1 January 2017
IAS 12 (Amended) <i>Income Taxes</i>	1 January 2017

Application of these standards and interpretations had no significant impact on the Group's financial position or results of operations.

**NOTE 19. CONTINGENCIES AND COMMITMENTS****Capital expenditure commitments**

The Group has approved contractual capital expenditure commitments for construction and fixed assets acquisition as of 30 June 2017 in the amount of RR 30,472 million (31 December 2016 – RR 14,270 million).

**Litigation**

Neiborz Drilling International Limited LLC has filed a lawsuit against OOO Slavneft-Krasnoyarskneftegaz for the recovery of pre-term cancellation of the contract for the amount of USD 4 million (RR 236 million). The claim will be considered at the ICAC at the Chamber of Commerce and Industry of the Russian Federation, the date of consideration determined on 16 August 2017.

The Group has a number of other insignificant claims and litigations relating to regular business activities and insignificant fiscal claims. The Group's management believes that none of these claims, individually or in aggregate, will have a material adverse impact on the Group.

## **NOTE 19. CONTINGENCIES AND COMMITMENTS (CONTINUED)**

### **Taxation contingencies in the Russian Federation**

Russian tax and customs legislation is subject to varying interpretations and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activities of the Group may be challenged by the tax authorities.

Currently the Russian tax authorities are taking a more assertive position in their interpretation of the legislation and assessments and, as a result, it is possible that transactions and activities that have not been challenged in the past may be challenged. It is therefore possible that significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods.

Management believes that the Group has paid or accrued all taxes that are applicable. Where uncertainty exists, the Group has accrued tax liabilities based on management's best estimate of the probable outflow of resources embodying economic benefits, which will be required to settle such liabilities.

Amended Russian transfer pricing legislation took effect from 1 January 2012. The new transfer pricing rules appear to be more technically elaborate and, to a certain extent, better aligned with the international transfer pricing principles developed by the Organization for Economic Cooperation and Development. The new legislation provides the possibility for tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of controlled transactions (transactions with related parties and some types of transactions with unrelated parties), provided that the transaction price is not arm's length. The Group's management has implemented internal procedures to be in compliance with the new transfer pricing legislation. The Group's management believes that its pricing methodology is in compliance with the transfer pricing legislation and applied intra-Group prices are arm's length.

Given that the practice of implementation of the new Russian transfer pricing rules has not yet developed, the impact of any challenge of the Group's transfer prices cannot be reliably estimated; however, it may be significant to the financial conditions and the overall operations of the Group.

### **Operating environment**

Russia continues economic reforms and the development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of the economic, financial and monetary measures taken by the Government.

A decline in oil prices and sanctions imposed on Russia by some countries have a negative impact on the Russian economy. Interest rates of borrowings in Russian Roubles remain high. The combination of these factors led to a decrease in the availability of capital and increase of its value, as well as to an increase in uncertainty about future economic growth, which may adversely affect the financial position, results of operations and business prospects.

The Group's management is taking necessary measures to ensure sustainability of the Group's operations. However, the future effects of the current economic situation are difficult to predict and management's current expectations and estimates could differ from actual results.

In the normal course of business the Group is exposed to the following financial risks: market risk (including foreign currency risk, interest rate risk and commodity price risk), credit risk and liquidity risk. The Group has introduced a risk management system and developed a number of procedures to measure, assess and monitor risks and select the relevant risk management techniques.

Risk management is carried out by the Management Board on a monthly basis. The Company's Management Board and the Management Boards of subsidiaries jointly with the Boards of Directors provide principles for overall risk management, as well as policies covering specific areas, such as foreign currency risk and interest rate risk.

**Slavneft Group****Notes to the Consolidated Interim Condensed Financial Statements (unaudited)***(in million of Russian Roubles, unless noted otherwise)***NOTE 20. FINANCIAL RISK MANAGEMENT****Market risk**

The Group is exposed to market price movements relating to changes in commodity prices such as crude oil, foreign currency exchange rates, interest rates, stock prices and other indices that could affect the value of the Group's financial assets, liabilities or expected future cash flows. The measures taken by the Group's management to optimize revenues and expenses help to reduce the impact of this risk.

**Foreign currency risk**

The Company undertakes transactions nominated in foreign currencies and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar and euro. Foreign exchange risk arises from assets, liabilities, commercial transactions and financing nominated in foreign currencies.

The carrying amounts of the Group's financial instruments by currencies they are denominated are as follows:

**Slavneft Group****Notes to the Consolidated Interim Condensed Financial Statements (unaudited)***(in million of Russian Roubles, unless noted otherwise)***NOTE 20. FINANCIAL RISK MANAGEMENT (CONTINUED)**

The impact of the 20% appreciation/(depreciation) of the Russian ruble against foreign currencies on the Company's income before income tax would be the following:

	Six months ended 30 June 2017			Six months ended 30 June 2016		
	USD	EUR	BYR	USD	EUR	BYR
Effect on pre-tax profit	+/-1 555	+/-14	+/- 2	+/-4 064	+/-57	-/+134

**Commodity price risk**

The Group's overall commercial trading strategy in crude oil and related products is centrally managed. Changes in commodity prices could negatively or positively affect the Group's results of operations. The Group sells substantially all its crude oil and related products to the Primary Shareholders.

**Interest rate risk**

Loans and borrowings raised at variable interest rates expose the Company to interest rate risk arising from the possible movement of variable elements of the overall interest rate.

The interest rate profile of the Group's interest-bearing financial instruments is as follows:

	30 June 2017	31 December 2016
Bank deposits	5,248	3,297
Non-current debt	(16,860)	(11,043)
Current portion of non-current debt	–	(11,579)
<b>Fixed rate financial instruments, net</b>	<b>(11,612)</b>	<b>(19,325)</b>
Non-current debt	(66,619)	(31,833)
Current portion of non-current debt	(11,665)	(12,975)
<b>Variable rate financial instruments</b>	<b>(78,284)</b>	<b>(44,808)</b>

The Group's management analyzes its interest rate exposure, including by performing scenario analysis to measure the impact of an interest rate shift on annual income before income tax.

The table below summarizes the impact of a potential increase or decrease on the Company's profit before tax, as applied to the variable element of interest rates on loans and borrowings. The increase/decrease is based on management estimates of potential interest rate movements.

A 5% change in interest rates at the reporting date would have the following effect on profit before tax:

	Six months ended 30 June 2017	Six months ended 30 June 2016
Effect on profit before tax	(1,578)	840

The sensitivity analysis is limited to variable rate loans and borrowings and is conducted with all other variables held constant. The analysis is prepared with the assumption that the amount of variable rate liability outstanding at the reporting date was outstanding for the whole year. The interest rate on variable rate loans and borrowings will effectively change throughout the year in response to fluctuations in market interest rates.

The impact measured through the sensitivity analysis does not take into account other potential changes in economic conditions, that may accompany the relevant changes in market interest rates.

## **NOTE 20. FINANCIAL RISK MANAGEMENT (CONTINUED)**

### **Credit risk**

Credit risk is the risk that a counterparty may default or not meet its obligations to the Group on a timely basis, leading to a financial loss to the Group.

The Group is dependent on a limited number of customers, the top trade debtors of which are entities associated with the Primary Shareholders. Therefore the probability of repayment of non-discounted debts of buyers and customers as of 30 June 2017 is not considered as a significant risk, as the debtors (Primary Shareholders and other companies) in the past has not violated the terms of the arranged agreements.

The carrying amount of financial assets represents the maximum credit risk exposure.

### **Liquidity risk**

Liquidity risk is the risk that the Group will not be able to settle its financial liabilities as they fall due. Prudent liquidity risk management includes maintaining sufficient cash, the availability of funding with committed credit facilities and the ability to close out market positions.

As of 30 June 2017 net current liability position of the Group totally was RR 10,120 million (31 December 2016 – RR 45,257 million). Positive cash flow from operations for the six months ended 30 June 2017 was RR 5,980 million (for the six months ended 30 June 2016 – RR 34,800 million). As of 30 June 2017 the Group has an equity to total asset ratio of 52% (as of 31 December 2016 – 55%).

The Group's Management ensures flexibility in funding by maintaining availability of credit line facilities. The unused portion of committed credit lines as of 30 June 2017 was RR 18,437 million (as of 31 December 2016 – RR 17,095 million). The unused portion of uncommitted credit lines as of 30 June 2017 was RR 6,560 million (as of 31 December 2016 – RR 16,760 million).

The Group's Management expects that the major sources of the Group's liquidity in 2017 will be cash generated from operations and additional financing for investments in order to refinance the existing loans and to optimize finance costs.

## **NOTE 21. FAIR VALUE OF FINANCIAL INSTRUMENTS**

### **Fair value measurement**

There were no transfers between the levels of the fair value hierarchy during the six months ended 30 June 2017 year. There are no significant assets or liabilities measured at fair value categorised within Level 1 and Level 3 of the fair value hierarchy. Borrowings are within Level 2 of the fair value hierarchy.

#### ***Cash and cash equivalents, short-term bank deposits, accounts receivable and accounts payable***

The carrying amounts of these items are a reasonable approximation of their fair value.

#### ***Non-current debt***

Loans under bank arrangements have variable and fixed interest rates that reflect currently available terms and conditions for a similar debt.
